2299 THE ST. LAWRENCE SEAWAY AUTHORITY

Excavation in the Côte Ste. Catherine area for the inland canal where ships will enter after leaving the lock just downstream from this point. This five mile long canal will conduct ships to the open waters of lake St. Louis.

2263 ST. LAWRENCE SEAWAY AUTHORITY PHOTO

The mighty St. Lawrence is not easily thwarted, yet builders of the St. Lawrence Seaway bend its strength to their will. Here a turning basin and part of a seven-mile channel is being built around the bow of the Laprairie basin west of Montreal, the first site of the Mission.
